

M

Place your index finger across your lips while saying "m"

P

Make a pinching gesture with your index finger and thumb across your lips while saying "p"

T

Place your index finger to your teeth and let it fly out (and a little bit up) from your face as you say "t"

K

Rest your hand on your throat and let it fly out (and a little bit down with palm upturned) as you say "k"

F

Hold up four fingers under your bottom lip as you bite and blow to say "f" (you can wiggle the fingers during the sound for added effect, as this is sometimes known as the "windy sound")

N

Place your index finger next to one of your nostrils so you can feel the vibration when saying "n"

B

Put your palm in front of your lips and move out slightly as you say "b"

D

Same as for "t," but keep your finger at your teeth when you say "d"

G

Same as for "d," but keep your hand on your throat when you say "g"

S

Starting at the shoulder, run your index finger down your arm while saying "s," mimicking the movement and sound of a snake
